**COMPLAINT AND DEMAND FOR JURY TRIAL**

1. During a court hearing contesting the results of the 2020 election in Pennsylvania, Rudy Giuliani admitted that the Trump Campaign “doesn’t plead fraud” and that “this is not a fraud case.” Although he was unwilling to make false election fraud claims about Dominion and its voting machines in a court of law because he knew those allegations are false, he and his allies manufactured and disseminated the “Big Lie,” which foreseeably went viral and deceived millions of people into believing that Dominion had stolen their votes and fixed the election. Giuliani reportedly demanded \$20,000 per day for that Big Lie. But he also cashed in by hosting a podcast where he exploited election falsehoods to market gold coins, supplements, cigars, and protection from “cyberthieves.” Even after the United States Capitol had been stormed by rioters who had been deceived by Giuliani and his allies, Giuliani shirked responsibility for the consequences of his words and repeated the Big Lie again. This defamation action follows.

2. Dominion was founded for the purpose of creating a fully auditable paper-based vote system that would empower people with disabilities to vote independently on verifiable paper ballots.<sup>1</sup> As it grew, Dominion developed technology to solve many of the technical and voter-intent issues that came to light as a result of the 2000 election. Its systems are certified under standards promulgated by the U.S. Election Assistance Commission (“EAC”), reviewed and tested by independent testing laboratories accredited by the EAC, and were designed to be auditable and include a paper ballot backup to verify results. Indeed, recounts of paper ballots have repeatedly shown that Dominion machines accurately counted votes in the 2020 election—conclusively disproving the election-fixing claims promoted by Giuliani and his allies.

3. As a result of the defamatory falsehoods peddled by Giuliani—in concert with Sidney Powell, Russell Ramsland, L. Lin Wood, Mike Lindell, Patrick Byrne, Lou Dobbs, Fox News, Fox Business, Newsmax, One America News Network (“OAN”), *The Epoch Times*, and other like-minded allies and media outlets determined to promote a false preconceived narrative about the 2020 election—Dominion’s founder and employees have been harassed and have received death threats, and Dominion has suffered unprecedented and irreparable harm.

4. Dominion brings this action to set the record straight, to vindicate the company’s rights under civil law, to recover compensatory and punitive damages, and to stand up for itself, its employees, and the electoral process.

---

<sup>1</sup> “Dominion” refers to Plaintiffs, US Dominion, Inc. and its subsidiaries, Dominion Voting Systems, Inc., and Dominion Voting Systems Corporation.

**PARTIES**

5. Plaintiff US Dominion, Inc. is a for-profit Delaware corporation with its principal place of business in Denver, Colorado.

6. Plaintiff Dominion Voting Systems, Inc. is a for-profit Delaware corporation with its principal place of business in Denver, Colorado.

7. Plaintiff Dominion Voting Systems Corporation is a for-profit Ontario corporation with its principal place of business in Toronto, Ontario.

8. Defendant Rudolph Giuliani was formerly the mayor of New York City, the Associate Attorney General of the United States, and a United States Attorney for the Southern District of New York. He is now a YouTube podcast host, a radio show host, a media figure, and the personal attorney to Donald J. Trump. He is domiciled in New York but has spent most of his time in Washington, D.C., during the events giving rise to this case.

**JURISDICTION AND VENUE**

9. This Court has subject matter jurisdiction pursuant to 28 U.S.C. § 1332 because there is complete diversity of citizenship between Plaintiffs and Defendant and the amount in controversy exceeds \$75,000.00, exclusive of interest and costs.

10. This Court has personal jurisdiction over Giuliani pursuant to § 13-423 of the District of Columbia Code because Giuliani: (i) transacted business within the District of Columbia, including by demanding \$20,000 per day to represent Donald J. Trump in his efforts to overturn the 2020 election and by selling advertisements that were featured in his defamatory broadcasts about Dominion; (ii) caused tortious injury by acts committed within the District of Columbia, including and specifically by making false and defamatory statements about Dominion from within the District of Columbia on Twitter, on his podcast and radio shows, on televised media appearances, and at the “Save America” rally before the storming of the

U.S. Capitol on January 6, 2021; and (iii) caused tortious injury by acts committed outside the District of Columbia while regularly doing business within, engaging in persistent conduct within, and deriving substantial revenue from services rendered within the District of Columbia.

11. Requiring Giuliani to litigate these claims in the District of Columbia does not offend traditional notions of fair play and substantial justice and is permitted by the Due Process Clause of the United States Constitution. Dominion’s claims arise in part from defamatory statements Giuliani made about Dominion from within the District of Columbia, and Giuliani avails himself of numerous privileges in the District of Columbia, including those set forth above.

12. Venue is proper in this Court under 28 U.S.C. § 1391(b) because a substantial part of the events giving rise to the claims in this Complaint occurred in this District and, as discussed above, because Giuliani is subject to the Court’s personal jurisdiction in this District.

### **FACTUAL ALLEGATIONS**

#### ***Giuliani Enriches Himself by Falsely Claiming That Dominion Fixed the Election— A Claim He Was Not Willing to Make in Court Because He Knew It Was False***

13. By at least Election Day 2020, Giuliani had decided to claim that Donald Trump had won the election, regardless of the facts. Sitting in the White House just after midnight on election night, Giuliani ranted to top campaign aides: “[t]here’s no way he lost; this thing must have been stolen. Just say we won Michigan! Just say we won Georgia! Just say we won the election! He needs to go out and claim victory!”<sup>2</sup>

14. The day after the election, Patrick Byrne got in touch with Rudy Giuliani and Sidney Powell in Washington, D.C., and told them that he had known months earlier that “goons”

were going to steal the election, that he had started funding a plan in August, that he “had this plotted out what they were going to do,” and that he had “reverse engineered” how the election was stolen.<sup>3</sup>

15. The next day, Giuliani and Powell showed up at the Trump Campaign’s headquarters and Powell started pressing the campaign to focus suspicion on Dominion, saying that the Dominion strategy was ideal because it would draw into question the accuracy of the vote in so many states.<sup>4</sup> At least one Trump Campaign official was surprised by Powell’s sudden involvement and observed that Powell did not seem interested in having evidence.<sup>5</sup> When Trump Campaign attorneys Justin Clark and Matt Morgan sought evidence from Powell, she produced none. They then told others that they should not present the Dominion theory because there was no evidence for it.<sup>6</sup> Indeed, Byrne later explained that while Powell had been “totally super receptive” to his election-fixing claims about Dominion, his claims were “a little farfetched for other people in Washington” and Giuliani “came at this a bit differently.”<sup>7</sup>

<sup>7</sup> Ex. 22.

16. People close to Trump have said that Giuliani encouraged Trump to believe a number of conspiracy theories about voting machine irregularities, and some Trump allies feared that Giuliani was encouraging Trump to continue the fight because he saw financial advantage for himself.<sup>8</sup> Multiple people briefed on the matter said that Giuliani asked the Trump Campaign to pay him \$20,000 a day.<sup>9</sup>

17. On November 9, 2020, the Trump Campaign filed a complaint challenging the legitimacy of mail-in ballots and the conduct of election officials in Pennsylvania.<sup>10</sup> ***Notably, although Dominion machines were used in Pennsylvania in the 2020 election, the Trump Campaign’s complaint did not include any allegations about Dominion.***

18. A few days later, Giuliani gave a televised interview on *Lou Dobbs Tonight*, falsely telling a global audience that Dominion is owned by Smartmatic and that Smartmatic was formed “in order to fix elections” by “three Venezuelans who were very close to ... the dictator Chávez of Venezuela.” He also claimed that “Smartmatic, the company that owns Dominion” was being run by one of the people who was number two or three in George Soros’s organization.<sup>11</sup> The next day, on his weekday radio show, Giuliani falsely told his audience that “Dominion software ... really is Venezuelan ... it’s called Smartmatic.”<sup>12</sup> The day after that, Giuliani falsely tweeted that

19. On November 13, 2020, Giuliani posted an episode of his podcast, in which he capitalized on publicity he was receiving because of the Big Lie about Dominion. Along with the false accusation that Dominion had stolen the election “technologically,” Giuliani warned his viewers about “cyberthieves” stealing home titles “online,” and threw his arms in the air as if to emphasize the obvious danger of entrusting important matters to technology.<sup>14</sup>

20. Giuliani then pitched his viewers on a service they could buy to protect themselves for just \$596 for the 4-year service if they used the promo code “Rudy” when ordering.<sup>15</sup>

23. The next day, on November 15, the Trump Campaign filed an amended complaint in the Pennsylvania case, mistakenly withdrawing certain counts.<sup>18</sup> *The amended complaint did not contain any allegations about Dominion.*

24. That same day, during his radio show and a televised interview on Fox News's *Sunday Morning Futures with Maria Bartiromo*, Giuliani repeated the falsehoods the Trump Campaign had twice declined to make under penalty of Rule 11 sanctions in court, namely, that Dominion "uses Venezuela[] company software that's been used to steal elections in other countries," that Dominion uses software by Smartmatic, a company "that was founded by Chávez and by Chávez's two allies who still own it," that "it's really being run by people that are close to Maduro and Chávez," that the company "has tried and true methods for fixing elections," and that Dominion "notifies" election officials when they are too far behind so they can add in fake ballots.<sup>19</sup>

25. On November 17, Giuliani filed a petition for *pro hac vice* admission in the Trump Campaign’s Pennsylvania lawsuit and, the following day, filed and signed a motion for leave to file a second amended complaint and the proposed second amended complaint itself.<sup>20</sup> By signing the various iterations of the complaint, Giuliani and the Trump Campaign’s other attorneys certified that, to the best of their knowledge, information, and belief, formed after an inquiry reasonable under the circumstances, the factual contentions in the complaints had evidentiary support. *See* Fed. R. Civ. P. 11. ***Notably, not a single one of the three complaints signed and filed by Giuliani and other attorneys for the Trump Campaign in the Pennsylvania action contained any allegations about Dominion.***<sup>21</sup>

26. The day after Giuliani had signed and filed the Trump Campaign’s second amended complaint in the Pennsylvania action—which again, contained **zero** allegations about Dominion—Giuliani took to his weekday radio show to repeat the false accusation that “Dominion ... is originally a company from Venezuela that was put together in order to help Chávez win in Venezuela” and “has expertise in subtly changing the vote.”<sup>22</sup>

about Dominion that Giuliani himself was unwilling to make in court, but which Giuliani had been promoting on television and online. On November 20, 2020, after a hand count of 100% of the paper ballots cast in Georgia's election verified the accuracy of the counts from Dominion machines, Georgia's Republican Governor Kemp and Secretary of State Raffensperger certified the state's election results.<sup>37</sup> That same day, Giuliani doubled down on the disproven lies about Dominion on his weekday radio show,<sup>38</sup> and then on his podcast, falsely claimed that Dominion "interfered with the vote" and "this election was stolen."<sup>39</sup> Sidney Powell called the Georgia certification a "farce" and falsely accused Dominion of bribing Georgia's governor and secretary of state.<sup>40</sup>

***Knowing That the Claims Against Dominion Were False, Rudy Giuliani and the Trump Campaign Decline to Sign on to the Sham Litigations Filed by Sidney Powell and L. Lin Wood***

38. On November 25, Powell and her Georgia-based ally and co-counsel L. Lin Wood filed lawsuits together in federal courts in Georgia and Michigan. (Wood is known for using Twitter—until his account was permanently suspended on January 6, 2021—and Parler—before it was de-platformed—to falsely accuse Chief Justice John G. Roberts of being a child-murdering pedophile and to call for Vice President Mike Pence to be executed by “firing squad” for “treason.”<sup>42</sup>) In their lawsuits, Powell and Wood alleged “massive election fraud” in the 2020 election, claiming that Dominion was “founded by foreign oligarchs and dictators to ensure computerized ballot-stuffing and vote manipulation to whatever level was needed to make certain

Venezuelan dictator Hugo Chávez never lost another election.”<sup>43</sup> The following week, on December 1 and 2, 2020, Powell and Wood filed similar lawsuits in federal courts in Wisconsin and Arizona, repeating their false claims of “massive election fraud.”

39. Neither Giuliani nor any of the Trump Campaign’s other lawyers joined or signed their names to any of the pleadings in any of Powell’s and Wood’s sham election litigations; they knew there was no evidence to support the claims being made about Dominion in those cases. Indeed, two days after Powell and Wood filed their lawsuits alleging “massive election fraud” in Georgia and Michigan—and after Giuliani had repeatedly gone on television and online to falsely accuse Dominion of election fraud—Giuliani admitted during a court hearing in Pennsylvania that the Trump Campaign “doesn’t plead fraud” and that “this is not a fraud case.”<sup>44</sup>

40. On December 1, Trump appointee and then-U.S. Attorney General Bill Barr publicly stated, “There’s been one assertion that would be systemic fraud and that would be the claim that machines were programmed essentially to skew the election results. And the DHS and DOJ have looked into that, and so far, *we haven’t seen anything to substantiate that.*”<sup>45</sup> That same day, Barr told Trump that the theories about the election being stolen were “bullshit,” and

44. Even after Powell’s and Wood’s sham litigations had been dismissed, Giuliani continued propagating the demonstrable falsehoods they had advanced. By way of example only, on December 12, 2020, he appeared for a televised interview on *Fox and Friends* and falsely claimed that the “Dominion machine ... was developed to steal elections and [was] being used in the states that are involved.”<sup>49</sup>

***Starting with the Claims of a Facially Unreliable Purported Venezuelan Military Officer, Giuliani Deliberately Embellishes His Claims and Misrepresents the Relationship Between Dominion and Smartmatic to Support His Defamatory Falsehoods About Dominion***

45. Some of Giuliani’s false claims about Dominion are apparently based on the declaration of an anonymous purported Venezuelan military officer, whose declaration was submitted by Sidney Powell and L. Lin Wood in support of their sham litigations.<sup>50</sup>

46. There are several obvious reasons why Giuliani knew that source was unreliable.

47. **First**, the “anonymous witness’s” explanation for why he purportedly came forward was a near-verbatim recitation from another declaration put forward by Powell, proving that those witnesses did not each write their declarations independently and raising serious questions about the role that Powell and her team played in drafting the declarations.

It involves political leaders, powerful companies, and other persons whose purpose is to gain and maintain power by changing people’s free will and subverting the proper course of governing.”</p>

48. **Second**, his declaration has been redacted to conceal his identity and key details about his background.

49. **Third**, even if he were who he purports to be, there are serious reasons to doubt the outlandish claims of someone *who worked for a dictator with an interest in undermining confidence in American democracy*.

50. **Fourth**, American Trump appointees like Chris Krebs and Bill Barr—who, unlike the anonymous Venezuelan military officer, have never worked for a Venezuelan dictator—have confirmed that there was no widespread voter fraud in the 2020 election.

51. But even if one were to credit the incredible claims of the associate of a foreign dictator, even his declaration does not actually claim that Dominion was created in Venezuela for the purpose of rigging elections for Hugo Chávez. Rather, his declaration makes that claim about

Dominion’s competitor, Smartmatic. Although his declaration blithely asserts that Smartmatic software is “in the DNA” of every vote tabulating company’s software and system, it fails to provide any credentials, expertise, or factual basis whatsoever from which the declarant could possibly determine what is “in the DNA” of proprietary software he never even claims to have had access to, which is operated by multiple voting machine companies he never even claims to have worked for.<sup>51</sup> Moreover, as is shown from information readily available in the public domain, voting machine companies’ source code is reviewed by third-party labs that are federally accredited by the EAC and the National Institute of Standards and Technology (“NIST”).<sup>52</sup> As such, Giuliani knew or recklessly disregarded that that claim was obviously baseless and false.

52. In addition, if the anonymous purported Venezuelan military officer were in fact Leamsy Villafaña José Salazar—as has been reported by the Associated Press and the Caracas Chronicles—that would raise other serious doubts about the veracity of his declaration. After serving Hugo Chávez, Salazar worked for Diosdado Cabello, the alleged head of a Venezuelan drug cartel, before cooperating with the United States Drug Enforcement Agency. He

is quoted in a 2016 book titled *Boomerang Chávez: The Fraud that Led to Venezuela's Collapse*, which alleges that Smartmatic (not Dominion) was involved in rigging elections for Hugo Chávez in Venezuela. That book makes no mention of Dominion. If Salazar actually believed the Smartmatic software were “in the DNA” of Dominion and every other American voting machine company, surely that explosive accusation would have been mentioned in the book for which he was a source, and surely he would have come forward when he arrived in the United States approximately five years ago, instead of waiting until after Trump had lost the presidential election.

53. In any event, Giuliani deliberately embellished the anonymous declarant’s obviously false accusation that Smartmatic software is “in the DNA” of Dominion’s systems, claiming, for example, that “Dominion is a company that’s owned by another company called Smartmatic,”<sup>53</sup> that Dominion is “a front for Smartmatic”<sup>54</sup> and “a shell for Smartmatic,”<sup>55</sup> and that “Dominion sends everything to Smartmatic.”<sup>56</sup>

***Giuliani Intentionally Misrepresents What Happened in Antrim County, Michigan to Bolster His False Preconceived Narrative About Dominion***

55. On election night, the unofficial result from Antrim County, Michigan, indicated a win for Biden. That happened because of a series of human errors by the Antrim County Clerk: contrary to the instructions provided to her, she mistakenly failed to update all of the voting machines' tabulator memory cards and failed to perform the pre-election logic and accuracy testing that would have caught her first mistake. Because of the checks and balances in place to catch human errors, her mistakes were promptly caught as part of the normal canvass process before the election result was made official. The official results were never impacted by the clerk's promptly corrected mistakes.

56. On November 6, 2020, the Office of Michigan's Secretary of State publicly announced that the "erroneous reporting of unofficial results in Antrim county was a result of accidental error on the part of the Antrim County Clerk. The equipment and software did not malfunction and all ballots were properly tabulated."<sup>58</sup> And a few days later, a spokesperson for

the Michigan Secretary of State confirmed, “We have not seen any evidence of fraud or foul play in the actual administration of the election ... What we have seen is that it was smooth, transparent, secure and accurate.”<sup>59</sup>

57. Intentionally disregarding the announcement from the Secretary of State, Giuliani seized on the mundane reality of the clerk’s human error and intentionally distorted it to fit the false preconceived narrative that Dominion had fixed the election. For example, he falsely claimed that a “Dominion machine flipped 6000 votes from Trump to Biden” in Antrim County, Michigan and that the “[s]pike of votes by Dominion happened all over the state.”<sup>60</sup> He also falsely claimed that the error in the county’s initial reported results “[h]ad nothing to do with human error,”<sup>61</sup> that “the machine switched the votes based on some kind of pre-programming,”<sup>62</sup> and that the Dominion machines in Antrim County were “62% inaccurate,”<sup>63</sup> had a “68% error rate” and an “81.9% rejection rate” showing that “the election in Michigan for sure was a fraud,” and that the machines “don’t count ballots” but “calculate ballots” and have “algorithms” that “recalculate” votes to be “half a vote” or a “third of a vote.”<sup>64</sup> Similarly, he claimed that “Dominion ... machines ... in Michigan produced a 62 percent inaccuracy rate, and an 84 percent adjudication rate which

58. To bolster his lies about Dominion, Giuliani intentionally misrepresented that his accusations were supported by a “forensic examination” conducted by “forensic experts” with “a very reputable company.”<sup>71</sup>

59. As Giuliani was well aware when he made those false claims, the purported “forensic expert” was Russell Ramsland—a “Deep State” conspiracy theorist in cahoots with Sidney Powell who was selected not because Ramsland had election security expertise, but because he was determined to promote the false preconceived narrative that the election had been fixed.

60. Before Giuliani touted Ramsland’s expertise, Ramsland had publicly claimed, among other things, that George Soros helped form the “Deep State” in Nazi Germany in the 1930s—along with President George H.W. Bush’s father, the Muslim Brotherhood, and “leftists.”<sup>72</sup> Mr. Soros was born in 1930.

61. Moreover, by the time Giuliani touted Ramsland as a “forensic expert” and specifically referenced the “forensic review” from Ramsland and his “very reputable company,”<sup>73</sup> Ramsland had been publicly discredited for making false claims of overvoting in Michigan, which Ramsland based on vote counts from an entirely different state—Minnesota.<sup>74</sup> Indeed, a Delaware judge determined that Ramsland provided “materially false information” in support of his claims

of vote manipulation<sup>75</sup> when he referenced and cited locations in Minnesota when alleging voter fraud in Michigan—something that Giuliani either knew or recklessly failed to verify by reference through a basic Google search.<sup>76</sup>

62. Ramsland’s report on the “forensic examination” of the Dominion machines in Antrim County contains a staggering number of inaccuracies; obvious misunderstandings of election procedures, hardware, and software; and other indicia of unreliability.

63. Even though Ramsland cites to “experts” upon whom he purportedly relied in creating his report, he does not identify a single one. Nor does he identify any of their credentials or prior experience—other than the vaguest reference to a handful of government agencies—to justify their designation as “experts.”<sup>77</sup> And Ramsland does not identify any experience that he, or any of his so-called “experts,” have in elections or election hardware or software.

64. Additionally, Ramsland references the “allowable election error rate established by the Federal Election Commission.” The Federal Election Commission does not regulate voting machines or software. It regulates campaign finance.<sup>78</sup> Ramsland confused—or did not bother to research the differences between—the FEC and the EAC.<sup>79</sup> Dominion’s election voting system suite is, of course, certified by the EAC.<sup>80</sup>

65. Apart from these red flags indicating he is no expert at all, Ramsland also illustrates a gross misunderstanding of the machines and software in the details of his report. For example, he claims that his “forensics team” “perform[ed a] forensic duplication of the Antrim County Election Management Server running Dominion Democracy Suite 5.5.3-002.” But there is no Democracy Suite 5.5.3-002. Instead, 5.5.3-002 is the version of the ImageCast Precinct tabulator (*i.e.*, the actual scanner), not the election management server or software.<sup>81</sup> This demonstrates that Ramsland is incapable of telling the difference between the relevant hardware, software, and servers involved—or simply did not take care to do so.

66. Ramsland also fails to understand the difference between—or intentionally distorted—adjudication software (which is an optional component of Dominion’s voting system suite) and the process of adjudicating a ballot. In fact, Antrim County only purchased (and therefore only used) certain components of Dominion’s voting system suite; critically, Antrim County neither purchased nor used—nor possessed the hardware required to use—the adjudication software.<sup>82</sup> This did not prevent Ramsland from falsely claiming that “[b]allots sent to adjudication can be altered by administrators,” and that “all adjudication log entries for the 2020 election cycle are missing” and must have been “manually removed.”

67. Finally, Ramsland’s specific claim of a 68% “error rate” evidences a fundamental misunderstanding of election software. Ramsland claims to have used the tabulation logs as the source for his supposed “error rate.” But the tabulation logs do not reflect the machine’s tabulation of votes. They record activities logged by the machine during the tabulation process.<sup>83</sup> So

Ramsland’s claim that “these ... tabulation totals were used as the official results” is false (because they are a recording of machine activity, not votes). Simply put, Ramsland does not understand what he is looking at.

68. While Ramsland claims that a huge percentage of machine activity reflected in the tabulation logs were “errors” or “warnings,” he gives no explanation of how he identified or defined an “error” or “warning.”

69. Ramsland references three settings—“reverse,” “divert,” and “override”—as examples of these so-called “critical errors” or “warnings.” But these are not “errors.” They are parameters used in the tabulator to handle ballots that—for example—include write-in candidates or ballots that contain votes for two candidates for the same office. Calling these “errors” is analogous to claiming that the low fuel indicator light turning on in a car is an “error”—it is of course not an error; the car is operating precisely how it is supposed to. Similarly, just because the tabulator recorded, for example, “divert” does not mean that there was error with the ballot or the vote; precisely the opposite—it means that the machine operated properly in response to that ballot.<sup>84</sup> This shows that Ramsland does not understand—or did not take care to distinguish—the difference between an actual error and proper functioning.

70. Given Giuliani’s tenure as a federal prosecutor, he is well aware of how to evaluate the credentials of a purported expert and the reliability of a purported expert report; he realized beforehand that Ramsland was not an expert in the subject matter and that his opinion was worthless and designed from the outset to reach a conclusion to support a false preconceived

71. People who are actually knowledgeable about election security and procedures in Antrim County promptly, publicly, and forcefully rebutted Ramsland's report.

72. Antrim County officials determined—and publicly announced—that Ramsland's report was “riddled with false and unsupported claims, baseless attacks, and incorrect use of technical terms.”<sup>85</sup>

73. Similarly, the former acting director of the EAC's Voting System Testing and Certification program said that Ramsland's report showed a “grave misunderstanding” of Antrim County's voting system and “a lack of knowledge of election technology and process.”<sup>86</sup>

74. Michigan's Attorney General and Secretary of State issued a joint statement that Ramsland's report was “critically flawed, filled with dramatic conclusions without any evidence to support them.”<sup>87</sup>

75. The Republican county clerk who made the mistake that resulted in the inaccurate unofficial results stated that Ramsland’s report contained “many misleading statements” and was “simply not accurate.”<sup>88</sup>

76. But there is no need for a battle of the experts: *the paper ballots in Antrim County were recounted by hand*—conclusively disproving the lie that Dominion machines had erroneously tabulated 68% of the votes.<sup>89</sup>

77. Following a bipartisan investigation into the vote in Antrim County, Michigan, the state’s Republican Senate Majority Leader Mike Shirkey announced, “[o]ur investigation, which has been very intense, discovered none, none of the allegations and accusations against Dominion [are] true.”<sup>90</sup>

78. Yet even after the hand recount confirmed that “Dominion’s voting machines accurately tabulated the votes cast for president in Antrim County,”<sup>91</sup> Giuliani continued to repeat the lie. For example:

- (a) the day after the hand recount, Giuliani proclaimed on his podcast that the Dominion voting machines had “6,000 votes switched from Trump to Biden,” that the Dominion machines “switched the votes based on some kind of pre-programming,” and that there was a “68% error rate.”<sup>92</sup>

***As Repeatedly Proven by Independent Audits and Hand Recounts of Paper Ballots,

that were verified and cast by voters would not match the machine counts. In fact, independent 100% hand audits and recounts of paper ballots have repeatedly verified the accuracy of the vote counts from Dominion machines.

81. After a 100% hand audit of all the ballots cast in Georgia in the 2020 election, Georgia's Republican Secretary of State Brad Raffensperger explained that "Georgia's historic first statewide audit reaffirmed that the state's new secure paper ballot voting system accurately counted and reported results."<sup>96</sup>

82. At the request of the Trump Campaign, in addition to the hand audit, Georgia also conducted a subsequent machine recount, which again affirmed the original outcome of the presidential race in Georgia.

88. While endeavoring to make the facts conform to the false preconceived narrative that the election had been fixed by Dominion, Giuliani was confronted with a number of facts that rendered his outlandish claims inherently improbable, if not outright impossible.

89. For example, he has not explained how a decades-old international election-rigging conspiracy involving independent testing labs accredited by the EAC and thousands of bipartisan local election volunteers could have evaded detection for so long.

90. Giuliani also has not explained how—if Dominion were actually controlled by the associates of a Venezuelan dictator—it was permitted to operate in the United States by the Committee on Foreign Investment in the United States (“CFIUS”).

91. Nor has Giuliani explained how—if Dominion were willing and able to commit a massive fraud to deprive Trump of the presidency—Trump won the presidential election in 2016, when Dominion machines were used in 1,635 jurisdictions in more than two dozen “red” and “blue” states.

92. Yet, despite the inherent improbability of his lies, Giuliani continued to promote them even after Powell’s sham litigations had been dismissed and her witnesses—including the anonymous purported Venezuelan military officer and Russell Ramsland—had been judicially

***Dominion Suffers Enormous Harm***

97. As a result of the false accusations disseminated to a global audience by Giuliani, his allies, and like-minded media outlets—who acted in concert to promote a false preconceived narrative about the 2020 election, despite the total lack of evidence to support it, and despite the mountains of paper ballots and the army of credible sources disproving it—Dominion has suffered unprecedented reputational and financial harm, and its employees’ lives have been put in danger.

98. Giuliani’s false tweets about Dominion were liked over 534,000 times and were foreseeably retweeted over 160,000 times. The retweets disseminated Giuliani’s false tweets to over 1.5 million Twitter accounts. Based on the average followers and the number of retweets overall, Giuliani’s false tweets about Dominion potentially reached more than 331 million Twitter accounts—or about the same number of accounts as the entire U.S. population.

99. Over a *three-hour period* on December 21, 2020, the terms “dominion” and “fraud” were tweeted out together by more than **2,200** users with over **8.75 million** total followers.

126. Because of these threats and numerous others, Dominion has made significant expenditures to protect its people from harm—including by employing on-site police and security. Since the beginning of the viral disinformation campaign, Dominion has spent more than \$565,000 on private security for the protection of its people.

127. As Dominion was coping with the barrage of death threats by hiring security and having employees work remotely, a commenter on one of Giuliani’s defamatory podcasts crowed, “The dominion executives have fled the jurisdiction. They vacated their offices and ran. Funny, you would think they would stand by their machines and software proudly and try to tell everyone how accurate their product is. OOPS!”<sup>128</sup>

128. As a direct result of the viral disinformation campaign, Dominion has been forced to make significant expenditures in an attempt to mitigate the harm to its reputation and business. To date, Dominion has incurred expenses of more than \$1,170,000 to that end.

129. Dominion is a for-profit company that provides local election officials with tools they can use to run elections. It generates revenue by selling voting technology services to elected officials from both political parties. It contracts with state and local governments to provide its voting systems and services in a majority of states across the country. Those contracts are typically

multi-year contracts and range from tens of thousands of dollars to over a hundred million dollars, depending on the jurisdiction and scope of the contract. Given the nature of the U.S. election system and the voting services industry, Dominion’s contracts have historically been long term with high renewal rates. In 2020, state and local election officials and bipartisan poll workers in 28 “red” and “blue” states administered their elections by using Dominion’s tabulation devices to count paper ballots.

132. Similarly, since the viral disinformation campaign began, state legislators in various states in which Dominion has contracts—including Florida, Louisiana, Michigan, and Pennsylvania—have stated their intent to review and reassess those contracts.

135. As illustrated in the examples above, as a result of the viral disinformation campaign, Dominion has been unfairly subjected to the hatred, contempt, and distrust of tens of millions of American voters, and the elected officials who are Dominion's actual and potential customers have received emails, letters, and calls from their constituents demanding that they avoid contracting with Dominion or using Dominion machines. As a result, elected officials, insurers, and potential investors have been deterred from dealing with Dominion, putting Dominion's contracts in more than two dozen states and hundreds of counties and municipalities in jeopardy and significantly hampering Dominion's ability to win new contracts. Based on Dominion's historic financial track record, contract pipeline, retention and renewal rates, and new business capture rates, as well as the nature, severity, pervasiveness, and permanence of the viral disinformation campaign, current projections show lost profits of \$200 million over the next five years, when reduced to present value. In addition, the viral disinformation campaign has irreparably damaged Dominion's reputation and destroyed the resale value of a business that was worth between \$450 million and \$500 million before the viral disinformation campaign.

***After Dominion Seeks a Retraction, Giuliani Doubles Down***

136. On December 16, 2020, Dominion sent a 15-page retraction demand letter to Giuliani's ally, Sidney Powell, detailing the falsity of the claims that Powell and Giuliani had made about Dominion at the press conference and during their televised media tours.<sup>133</sup>

the matter.<sup>134</sup> Because of this, Giuliani knew about—and likely read—the retraction demand letter to Powell—which set forth the falsity of the claims that Giuliani had also been making about Dominion—by at least December 19, 2020.

138. On December 22, Dominion also sent Giuliani a letter demanding that he cease and desist making false and defamatory claims about Dominion and instructing him to preserve all materials that might be relevant in litigation about the matter.<sup>135</sup>

139. The letters seem to have had some effect on Giuliani—at least temporarily. On Twitter and in media appearances from December 21-23, Giuliani reframed his claims to avoid directly charging Dominion with fraud and election-fixing: instead, he falsely charged “crooked” election officials of “cheat[ing]” and “fool[ing] around with the machines” and “misus[ing]” the machines.<sup>136</sup> And, he claimed the company “has a history of making – let’s be generous – a lot of

The day before Christmas Eve, he broadcast an episode of his *Common Sense* YouTube show, in which he falsely charged Dominion with fixing the election with crooked machines that flipped votes from Trump to Biden.<sup>138</sup> In addition to re-running his direct-to-camera advertisements for an “American-owned” cigar company, Giuliani also warned that a “socialist storm is brewing,” and pitched his audience on buying paid memberships—costing up to \$500 for a lifetime membership—in the “conservative alternative to the AARP.”<sup>139</sup> Giuliani instructed his viewers to use his name when signing up.

***Incited by the Big Lie, a Mob Storms the United States Capitol  
and Temporarily Halts the Certification of the 2020 U.S. Presidential Election***

143. By the night of the election, Giuliani had devised a plan to simply assert, without evidence, the Big Lie that the election had been stolen. Then, in a flurry of media appearances and on Twitter, Giuliani and his allies repeatedly told hundreds of millions of people that Dominion was the thief. Just as Giuliani and his allies intended, the Big Lie went viral on social media as people tweeted, retweeted, and raged that Dominion had stolen their votes. While some lies—little lies—flare up on social media and die with the next news cycle, the Big Lie was different. The harm to Dominion’s business and reputation is unprecedented and irreparable because of how fervently millions of people believe it. Indeed, hundreds of people believed the Big Lie about Dominion with such devotion that they took the fight from social media to the United States Capitol to #StopTheSteal. Americans with no prior criminal records booked hotel rooms, bought flights, and boarded planes to Washington, D.C., to attend the so-called “Save America” rally and to storm the Capitol to stop Congress from certifying the results of the “stolen” election. Having been deceived by Giuliani and his allies into thinking that they were not criminals—but patriots “Defend[ing] the Republic” from Dominion and its co-conspirators—they then bragged about their involvement in the crime on social media.

On the morning of January 6, 2020, at 5:54 a.m., Giuliani retweeted a tweet that is no longer available and wrote “Hope to see you.”<sup>148</sup> At 10:28 a.m., he doubled down on the Big Lie that the election had not been honest, retweeting a video of “[H]istoric crowds in Washington DC in support of President Trump and honest elections.”<sup>149</sup>

152. At 10:50 a.m., Giuliani took the stage at the “Save America” protest and doubled down on the Big Lie that he had first told about Dominion in early November, stating:

[W]e get to see the machines that are crooked, the ballots that are fraudulent. ... So, let’s have trial by combat. ... [O]ne of the experts who’s examined these crooked Dominion machines, has absolutely found what he believes is conclusive proof that in the last 10%, 15% of the vote counted, the votes were deliberately changed by the same algorithm that was used in cheating President Trump and Vice President Pence, same algorithm, same system, same thing was done with the same machines. ... This election was stolen.<sup>152</sup>

153. Around noon, Donald Trump took the stage. Shortly after Trump started speaking, Giuliani again doubled down on the Big Lie, tweeting out a photo of him along with the caption, “The truly elected President!”<sup>153</sup> That tweet garnered over 10,000 retweets and over 46,000 likes.

155. During his speech, Trump foreseeably repeated the lies that Giuliani and his allies had told him, stating “there’s theft involved ... we will stop the steal.”<sup>156</sup> The crowd chanted, “FIGHT FOR TRUMP! FIGHT FOR TRUMP! FIGHT FOR TRUMP!”<sup>157</sup> Trump continued, “Rudy, you did a great job. He’s got guts. You know what? He’s got guts, unlike a lot of people in the Republican party. He’s got guts, he fights. He fights.”<sup>158</sup>

156. Trump continued: “if Mike Pence does the right thing, we win the election... All Vice President Pence has to do is send it back to the States to recertify, and we become president ... We’re going to have to fight much harder and Mike Pence is going to have to come through for us. ... After this, we’re going to walk down and I’ll be there with you. ... We’re going to walk down to the Capitol. ... [Y]ou’ll never take back our country with weakness. You have to show strength, and you have to be strong.”<sup>159</sup>

157. Trump also foreseeably repeated the Big Lie about Dominion that Giuliani, Powell, and Wood had fed him and—based on that lie—ordered his supporters to march to the Capitol:

We’ve amassed overwhelming evidence about a fake election. ... In addition, there is the highly troubling matter of Dominion voting systems. In one Michigan County alone, 6,000 votes were switched from Trump to Biden, and the same systems are used in the majority of states in our country. ... 176. Giuliani has not retracted his false claims about Dominion, and many of his false and defamatory television and radio appearances and tweets remain available online to a global internet audience. Indeed, to this day, he continues to double down on the Big Lie.

**COUNT ONE – DEFAMATION *PER SE***

177. Dominion repeats and re-alleges each of the forgoing paragraphs as if set forth fully herein.

178. Giuliani made the following false and defamatory statements of fact about Dominion:

- (a) Beginning shortly after November 3, 2020, and continuing to the present day, Giuliani falsely claimed to numerous reporters, media outlets, and global audiences, in words or substance, that Dominion participated in a scheme to fix the 2020 presidential election by manipulating votes and the vote count, that Dominion is owned by or is a front for a company created in Venezuela to rig elections for Hugo Chávez, and that Dominion machines in Antrim County, Michigan flipped votes and had a 68% error rate and an 81.9% error rate, proving that the election in Michigan was a fraud. In making these false claims, Giuliani acted in concert with like-minded allies and media outlets that were determined to promote a false preconceived narrative about the 2020 election, and Giuliani expected, intended, foresaw, and facilitated the republication of his false statements to the broadest possible audience.
- (b) On November 12, 2020, Giuliani appeared on the Fox Business show “Lou Dobbs Tonight” with Fox personality Lou Dobbs. Dobbs tweeted an embedded video of the interview, which Giuliani retweeted. In the interview, Giuliani falsely stated:

Dominion is a company that’s owned by another company called Smartmatic, through intermediary company called Indra. Smartmatic is a company that was formed ... by three Venezuelans who were very close to, very close to the dictator, Chávez of Venezuela. And it was formed in order to fix elections. That’s the company that owns Dominion. ... [A]ll of its software is Smartmatic software ... So we’re using a ... company that is owned by Venezuelans who were close to – were close to Chávez, are now close to Maduro, have a history, they were founded as a company to fix elections ... I’ll give you another connection, Smartmatic, the company that owns Dominion, well the guy who was running it, was

one of the people who was number two or three in Soros’s change the world organization, Open Society.<sup>187</sup>

- (c) On November 13, 2020, Giuliani hosted his radio show, “Chat with the Mayor” on 77WABC radio, from Washington, D.C., during which he falsely stated:

We have great concern over Dominion ... its software really is Venezuelan, it was called, it’s called Smartmatic. It was invented for, for Hugo Chávez to steal elections. ... And with a company owned by two people that are very close to a very big enemy of the United States, Hugo Chávez ... We do know in Antrim county, Michigan, ... the machine screwed up the vote. The machine flipped the vote. In other words when you pressed down Biden, you got Trump, and when you pressed down Trump you got Biden ... but flipping around the machine might not be, might also be a contributor when you consider that this company was expert in it, what it was invented to do.<sup>188</sup>

- (d) On November 13, 2020, Giuliani published an episode of—and also tweeted a link to— his podcast “Rudy Giuliani’s Common Sense” from Washington, D.C., in which he falsely stated:

- (e) On November 13, 2020, Giuliani appeared on an episode of Steve Bannon’s “War Room: Pandemic” podcast during which he falsely stated:

Dominion ... it really is a Venezuelan company, it depends completely on the software of Smartmatic. Smartmatic was a company that was developed ... to help Chávez steal elections. - (g) On November 15, 2020, Giuliani hosted his Sunday radio show, “Uncovering the Truth with Rudy Giuliani & Dr. Maria Ryan” from Washington, D.C., and falsely stated:

There was a big pause. Now it looks like *it was instigated by Dominion*, and they probably got the word, we got to make up those ballots, and the cheating really went into high gear. And that’s when, at four in the morning, 100,000 votes show up in Michigan, 100,000 votes that show up in ash cans, and boxes ... the voting machine company ... Dominion isn’t what it appears to be. ... they use their software, by contract, with a company called Smartmatic. Smartmatic is founded in 2004 by two Venezuelans who were very close to Chávez. It was founded and put together for the specific purpose of stealing elections. It stole elections in Venezuela, stole elections in Argentina ... so Dominion is basically a shell for Smartmatic. It’s a company still owned by two Venezuelans, two Venezuelans very close to Maduro, the guy that we’re trying to overthrow in Venezuela. And our votes ... we don’t know what they’re doing with it. And here’s one of their specialties, which they did in an Argentinian election I believe, one of their specialties is if you’re going to lose, they immediately figure out where they gotta cut off the vote ... [O]ne of the things that Smartmatic specializes in, including, you know, warning you you’re falling too far behind, stop, reset, and start cheating even more, they also know how to spread a vote out, so if they have to catch you up, let’s say by 10,000 votes, they don’t do it just in one place, they sprinkle it in throughout a big city. And they, but they made a mistake in Michigan, that’s how it all started. ... [T]he machine had 6,000 votes switched from Trump to Biden. ... This is a ... entity that is rigging our election. This is a Venezuelan-owned company ... they may be registered in

- (h) On November 15, 2020, Giuliani appeared on the Fox Business show “Sunday Morning Futures with Maria Bartiromo” with Fox personality Maria Bartiromo. Giuliani was interviewed from Washington, D.C., and falsely stated:

Giuliani: [T]he rigging ... went on ... [A] company that did the votes in 27 states ... uses Venezuela company software that’s been used to steal elections in other countries. ... [T]he software that they use is done by a company called Smartmatic, it’s a company that was founded by Chávez and by Chávez’s two allies who still own it. It’s been used to cheat in elections in South America. ... Dominion sends everything to Smartmatic. ... And this company has tried and true methods for fixing elections by calling a halt to the voting when you’re running too far behind. They’ve done that in prior elections. ... One of the chairmen of Smartmatic is a close business associate of George Soros. ... In Detroit, we have evidence that 100,000 ballots were brought in at 4:30 in the morning and counted and to the extent that our witnesses and there are four of them saw it, and one of them is an ex-employee of Dominion, and according to them every single ballot was for Biden and not only that whatever ballots they could see because they weren’t Republican so they could get closer, every ballot they could see just had Biden’s name on it, nobody else, not even another Democrat. Why does that happen? *It happens because* you know you’re behind, *Dominion notifies you*, you call off the counting and then you start doing ballots like this. ...

Bartiromo: ... One source says that the key point to understand is that the Smartmatic system has a back door, that allows it to be or that allows the votes to be mirrored and monitored allowing an intervening party a real-time understanding of how many votes will be needed to gain an electoral advantage. Are you saying the states that use that software did that?

Giuliani: I know I can prove that they did it in Michigan. I can prove it, with witnesses. ... We have people that I can’t really disclose, that can describe the hardware in great detail. We have some of the people, former government employees, our government employees, and others that were there at the creation of Smartmatic, they can describe it, they can draw it, they can show it, and then we have

And it was founded for the specific purpose of being able to fix elections. That’s right. The company that is calculating many of our votes in 27 states, the company that’s using the software to count those votes, was founded for the specific purpose of fixing elections. ... Dominion is a front for Smartmatic. ... Usually, according to the evidence that we have so far ... the way Smartmatic fixes an election is to very subtly change votes, so there isn’t some big change in any one particular voting place. So, let’s say you want to make up 50,000 votes in the city of New York. You don’t do it in one place. You don’t do it in two places, three. They use an algorithm in which they spread it out across the city, so they can get you a 2-3% difference over your opponent. This is the formula that they used in Venezuela. This is the formula they used in Argentina. This is the formula they’re known for. That is executed by the Smartmatic algorithms and the

Smartmatic software, which, as I said, originates from Venezuela. In other words, we're using a Venezuelan system to calculate the votes in the United States. We're using a system that originates from a dictatorship... as the core of our vote calculation and a company whose expertise is subtle changes in votes. ... In Antrim County, Michigan, ... in one particular machine, they had switched, Dominion had, and Smartmatic, which is the ultimate software, had switched 6,000 votes, had switched 6,000 votes from Trump to Biden. So the poor people of Michigan who went into vote for Trump ended up voting for Biden because the machine and the software that originates with Venezuela, the dictatorship, changed their vote. ... One of the other things they do is, they warn you when you're falling too far behind when the count is going on. ... <sup>194</sup>

Missing from them were all the corrections ... that would show the corrections that were made, which basically were to switch votes from Trump to Biden. ... So, based on the experts that we’ve had examine the Dominion machine, it’s basically operating on the original Smartmatic-Sequoia software, which was designed to not count a vote, but to calculate a vote. ... the barest of due diligence on Dominion voting systems, if you just went on here and Googled it, you would find everything I just told you, including the connection, historic connection to Venezuela and to Smartmatic. .... [In Antrim County, Michigan] 6,000 votes [were] switched from Biden, from Trump, rather, to Biden ... the county and the state of course lied and said that it was human error ... there was no human error. The machine switched the votes based on some kind of pre-programming. And apparently the machines throughout the state are programed to switch votes. The error rate for the votes cast on these machines was a 68% error rate. ... The federal election commission allows a rate of .0008%, so this error rate is, virtually means there was no election. ... There was an 81.96 reject rate in the votes cast. And in the machine, these are sent to adjudication. They go to adjudication files where somehow, magically based on

algorithms, they're recalculated. Why they have to be recalculated is, again, only because you want the flexibility to cheat. ... This is the purpose of the machine, the purpose of the machine is to calculate, and not count. ... [The vote] certified by those states using this fraudulent voting system are without any doubt false. ... [T]hese machines were programmed for insertion of votes .... [T]he machine was horribly manipulated to the point where the vote bears no relationship to anything having to do with reality. ... This machine is a fraudulent machine that produced a fraudulent vote.<sup>217</sup>

Giuliani: He's got a very, very important point. ... The reality is that Mr. Lindell and Colonel Waldron although slightly different methodologies, can point out that the machines were rigged to create a result. And there were even formulas that they can find, like for every 8 votes that Biden got, Trump got two. And machines were set differently in different places. Even fractions, so, I'll give you an example. In the parts of Atlanta where Trump was going to be a big winner, they couldn't make him a loser, but they took him down by three, four percent ... So you shave just four percent. Hard to notice. ... But then, it deprives you of the numbers in the rural areas that offset your loss in the city. If you can change the vote in a voting machine, then it's built for one purpose and one purpose alone, and that's to cheat. ... It computes votes, rather than just counts them ... so long as you have Dominion, there is a clear and present danger that there's going to be a bump of 2, 3, 4 percent for whomever they want to bump it for. .... The facts that there were votes stolen ... it has been proven ... that evidence is in the form of ... the things that are used to program these Dominion machines. 179. Giuliani's statements are reasonably understood to be statements of fact about Dominion, and were understood by people who saw, heard, and read them to be statements of fact about Dominion.

180. Giuliani had no applicable privilege or legal authorization to make these false and defamatory statements, or if he did, he abused it.

181. As set forth above in detail, Giuliani's statements are false.

182. As set forth above in detail, Giuliani published these statements with actual malice, knowing or recklessly disregarding that they are false, misrepresenting evidence to support his false accusations; purposefully avoiding or intentionally disregarding abundant and publicly available evidence, facts, and reliable sources rebutting and disproving his false claims; espousing inherently improbable accusations; forming and sticking to a false preconceived narrative in spite of the facts; relying on facially unreliable sources; and—when specifically put on notice of the truth and asked to retract—doubling down on and republishing his false accusations, all in furtherance of his plan to financially enrich himself, to maintain and enhance his public profile, and to ingratiate himself to Donald Trump for money and benefits he expected to receive as a result of that association, including, but not limited to, a reported \$20,000 per day fee.<sup>237</sup>

183. Dominion is entitled to punitive damages under D.C. law because Giuliani's defamatory statements were accompanied with spite, malice, ill will, recklessness, wantonness, willful disregard of Dominion's rights, and other circumstances tending to aggravate the injury.

184. Giuliani's statements are defamatory and defamatory *per se*. They have exposed Dominion to the most extreme hatred and contempt. Giuliani has directly accused Dominion of fraud, election fixing, conspiracy, and bribery, which are serious crimes. For Dominion—whose business is producing and providing voting systems for elections—there are no accusations that could do more to damage Dominion's business or to impugn Dominion's integrity, ethics, honesty, and financial integrity. Giuliani's statements were calculated to—and did in fact—provoke outrage and cause Dominion enormous harm.

185. Acting in concert with allies and media outlets that were determined to promote a false preconceived narrative about the 2020 election, Giuliani launched a viral disinformation campaign about Dominion that reached millions of people and caused enormous harm to Dominion. As a direct, foreseeable, and intentional result of that viral disinformation campaign, Dominion has suffered the following single and indivisible injuries: Dominion employees have been stalked, have been harassed, and have received death threats; Dominion has been forced to make an expenditure of money to remedy the defamation and to protect the lives of its employees; Dominion has lost profits; and Dominion's reputation has been irreparably damaged.

186. In view of the forgoing, Dominion is entitled to actual, presumed, punitive, and other damages in an amount to be specifically determined at trial.

**PRAYER FOR RELIEF**

WHEREFORE, Dominion respectfully requests that the Court enter an award and judgment in its favor, and against Giuliani, as follows:

- (a) awarding Dominion compensatory damages of not less than \$651,735,000;
- (b) awarding Dominion punitive damages of not less than \$651,735,000; and
- (c) such other and further relief as the Court deems appropriate.
